Future Model for Nursing Documentation: *Extinction*

Linda Harrington, PhD, DNP, RN-BC, CNS, UXC, CPHQ, CENP, CPHIMS, FHIMSS

Are electronic health records a documentation system or a database? Find out how and why nursing documentation will become extinct in the digital age.

Medical documentation: Part of the solution, or part of the problem? A narrative review of the literature on the time spent on and value of medical documentation

Language Barrier: Getting Past the Classifications and Terminologies Roadblock

by Keith E. Campbell, MD, PhD, and Kathy Giannangelo, MA, RHIA, CCS

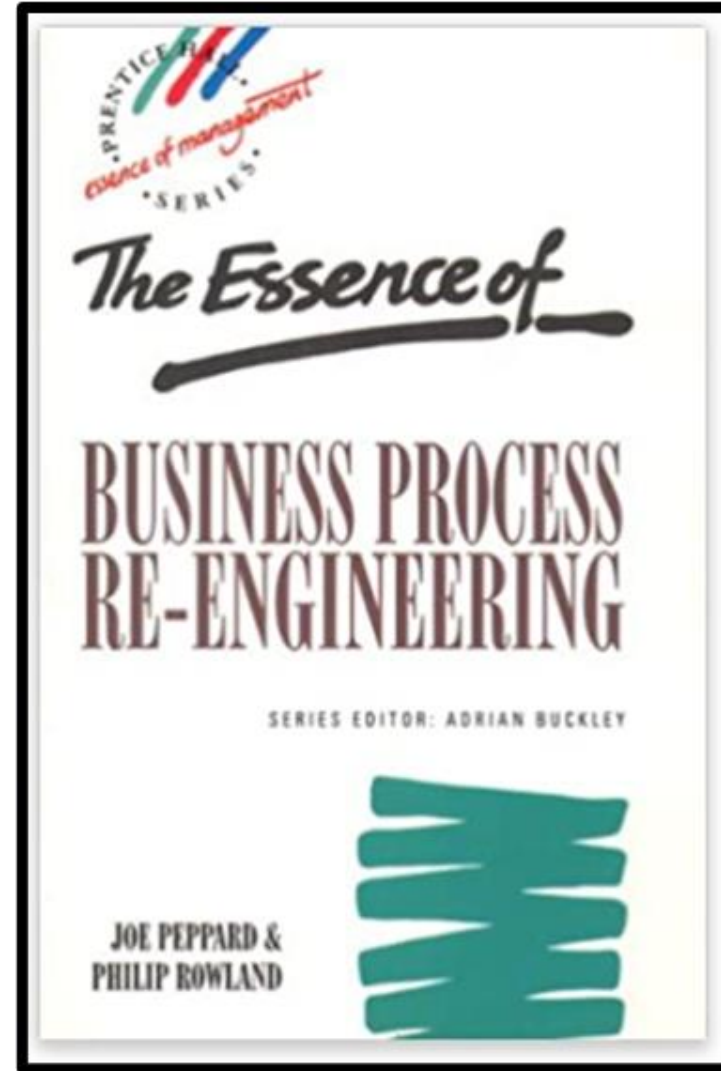

Health IT is bogged down in a quagmire of unaligned classification and terminology systems. New recommendations from AHIMA and AMIA help point to the way out.
